## **DETAILED ACTION**

### ***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 16, 18-34, 35 and 36, are drawn to a system and method of organizing, classified in class 281, subclass 21.1.
- II. Claims 2-15 and 17, are drawn to an online method and apparatus for organizing, classified in class 707, subclass 102.

1. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and that they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together, since Group II uses an online database structured to store, generate and provide listings of titles, and wherein Group I already discloses the provision of having titles placed on substrates.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3722

3. A telephone call was made to Attorney Michael Doll on November 22, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
